

## DAY 1

China Wed, Nov 17	Hawaii Tue, Nov 16	Session	Duration	Moderator/Speaker
9:00a	3:00p	<b>Webinar Opens for attendees to get connected</b>	30	
9:20a	3:20p	<b>Opening Remarks</b>	10	<b>Aristidis Veves, MD</b>
9:30a	3:30p	<b>Session 1 - Clinical Aspects of the Diabetic Lower Extremity</b>	90	<b>Moderator : John Giurini</b>
9:55a	3:55p	Diagnostic evaluation of the DFU patient	25	Barry Rosenblum, DPM
10:20a	4:20 p	Diagnosis of Peripheral Artery Disease in Diabetic Patients	25	Mark Wyers, MD
10:45a	4:45 p	Painful and Painless Neuropathy of the Diabetic Lower Extremity	25	Solomon Tesfaye, MD
		General Discussion Q&A	15	
11:00a	5:00p	<b>Session 2 - Developing a Diabetic Foot Team</b>	95	<b>Moderator : Mark Wyers</b>
11:25a	5:25p	Podiatrist: The Gate Keeper for the Management of Diabetic Lower Extremity	25	John Giurini, DPM
11:50a	5:50a	Arterial Procedures for Diabetic Patients With Ischemia	25	Raul Guzman, MD
12:15p	6:15p	Role of the Plastic Surgeon in Limb Preservation and Soft Tissue Reconstruction	25	Geoffrey Gurtner, MD
		General Discussion Q&A	20	
12:35p	6:35p	<b>Break</b>	20	
1:35p	7:35p	<b>Session 3 - State of the Art Treatments: Now and Future</b>	90	<b>Moderator : Aristidis Veves, MD</b>
		New Biomaterials for Cell and Biologics Delivery	35	David Mooney, PhD
2:10p	8:10p	Rongxiang Xu Keynote Lecture: New treatments for DFU and Chronic Wounds: A view in the future	40	Rob Kirsner, MD
2:50p	8:50p	General Discussion Q&A	15	
3:05p	9:05p	<b>Break</b>	25	
3:30p	9:30p	<b>United Nations Sustainable Development Goal Forum</b>	60	<b>Moderator: Eric Wang, MD</b>
		John Giurini, MD		
		Robert Kirsner, MD		
		Jamil Halabi		
		Rachna Jagia		
4:30p	10:30p	<b>Adjourn</b>		

## DAY 2

China Thu, Nov 18	Hawaii Wed, Nov 17	Session	Duration	Moderator/Speaker
8:30a	2:30p	<b>Bonus Session - Chinese Association of Integrative Medicine Symposium</b>	60	<b>Moderator : Aristidis Veves</b>
8:30a	2:30p	MEBT Combined with Sealing Negative Pressure Drainage for Sequential Treatment of Sacrococcygeal Pressure Ulcers	20	He Bin
8:50a	2:50p	Case study: Limb Salvage of 1 DFU Patient Complicated with Necrotizing Fasciitis.	20	Zhou Qi
9:10a	3:10p	Can Amputation Be Avoided in Severe Grade 5 DFU?	20	Chen Yongchong
9:30a	3:30p	<b>Break</b>	15	
9:45a	3:45p	<b>Session 4 - Pathophysiology of DFU and Other Chronic Wounds</b>	95	<b>Moderator : Geoffrey Gurtner</b>
10:10a	4:10p	Pathophysiology of Wound Healing	25	Marjana Tomic-Canic, PhD
10:35a	4:35p	Single Cell Transcriptome and Proteome Studies: Each Cell Has Its Own Story	25	Aristidis Veves, MD
11:00a	5:00p	New Concepts in the Pathophysiology of Chronic Wounds	25	Jeff Davidson, PhD
		General Discussion Q&A	20	
11:20a	5:20p	<b>Break</b>	15	
11:35a	5:35p	<b>Session 5 – New Technologies</b>	95	<b>Moderator : Jeff Davidson</b>
12:00p	6:00p	Novel Techniques Currently Employed in Clinical Practice in USA	25	Barry Rosenblum, DPM
12:25p	6:25p	Novel techniques in diagnosing and treating peripheral vascular disease	25	Raul Guzman, MD
12:50p	6:50p	Negative pressure wound therapy in management of complex wound with an update of NPWT with instillation	25	Lee Chin Yen, MD
		General Discussion Q&A	20	
1:10p	7:10p	<b>Break</b>	25	
1:35p	7:35p	<b>Session 6 - Wound Management: Challenges and opportunities to different health system:</b>	90	<b>Moderator : Barry Rosenblum</b>
2:00p	8:00p	Arab World	25	Mahmoud Sakr, MD
		Thailand	25	Kusuma Chinaroonchai, MD
2:25p	8:25p	General Discussion Q&A	20	
2:40	8:40p	<b>Adjourn</b>		

## DAY 3

China Fri, Nov 19	Hawaii Thu, Nov 18	Session	Duration	Moderator/Speaker
9:00a	3:00p	<b>Session 7 – Update in Clinical Trials and Oral Abstract Presentations</b>	95	<b>Moderator : Marjana Tomic-Canic</b>
9:25a	3:25p	Results of recent trials in USA	25	Oscar Alvarez, PhD
9:50a	3:50p	Results from recent trials in Asia	25	Uganbayar Choijil, MD
		General Discussion Q&A	15	
10:05a	4:05p	<b>Coffee Break</b>	15	
10:20a	4:20p	<b>Session 8 -Other Chronic Wounds</b>	95	<b>Moderator: Jeff Davidson</b>
10:45a	4:45p	Pressure ulcers	25	Lynda Hariani, MD
11:15a	5:15p	Management of post-surgical abdominal wound dehiscence in obstetrics and gynaecology patients using negative pressure wound therapy (NPWT) for closure	25	Vilvkumaran Karupayah, MD
11:40p	5:40p	Assessment of regenerative therapy in the healing of chronic pressure ulcers: a randomized controlled trial	25	Mahmoud Sakr, MD
		General Discussion Q&A	20	
12:00p	6:00p	<b>Wrap up &amp; Adjourn</b>	5
